

# LINKS Train-The-Trainer Seminar

## Typical Schedule For a 3-Day LINKS Train-The-Trainer Seminar

This 3-day schedule includes twice-daily teleconferences to discuss issues associated with teaching with LINKS.

Themes for the teleconferences are indicated below, but it's to be expected that discussion will be wide ranging. As well, the teleconferences represent an opportunity for participants to raise specific LINKS questions associated with their deliberations in this LINKS simulation event.

*All times are US Eastern Time [GMT-5]*

Monday (or earlier)	<p>You'll be advised via e-mail about your LINKS firm's passcode. With this passcode, you can access the LINKS Simulation Database to download/print the initial starting results in your LINKS simulation event. Everything relevant is in your round #3 results, so there's no particular need to access the prior rounds' results (all LINKS firms' decisions have been unchanged since round #1).</p> <p>Optional Activity: After completing your pre-reading of the LINKS participant's manual, you may wish to access/complete the "LINKS Quiz" on the LINKS website (for your particular LINKS simulation variant), as a check on your initial reading comprehension.</p>
Tuesday	<p>1100am: Teleconference: "Introduction"</p> <p>130pm: Inputs due for round #4</p> <p>300pm: Teleconference: "Faculty Roles in Large-Scale Simulations"</p> <p>900pm: Inputs due for round #5</p>
Wednesday	<p>1100am: Teleconference: "Simulation Customization"</p> <p>130pm: Inputs due for round #6</p> <p>300pm: Teleconference: "Performance Diagnostics/Evaluation"</p> <p>900pm: Inputs due for round #7</p>
Thursday	<p>1100am: Teleconference: "Simulation Logistics"</p>

*All times are US Eastern Time [GMT-5]*
